Full-Stack Developer with hands-on experience building scalable web and mobile applications using React.js, TypeScript, Node.js, NestJS, ASP.NET Core, and PostgreSQL. Experienced in RESTful APIs, authentication systems, state management, and collaborative Agile workflows using Jira and Git. Strong foundation in cybersecurity principles and secure application development.

Skills

- JavaScript | TypeScript | PHP | Python | React.js | React Native | Node.js | NextJs | Laravel | C# | ASP.NET Core | Laravel.
- PostgreSQL | MongoDB | MySQL | Prisma ORM | Entity Framework Core | OOP.
- Redux Toolkit | REST APIs | JWT Authentication | Swagger UI | Postman | Docker | Git/GitHub | Jira | SignalR | Firebase | Redis.
- OWASP Principles | Role-Based Authorization | API Testing | Responsive Design | Agile Collaboration | Software Testing.
- Arabic (Native), English (Professional Working Proficiency).

Experience

Full-Stack Developer Intern	<u>Areeba</u>	Beirut, Lebanon	Feb – May 2026
- Developed and tested scalable APIs using NestJS, TypeScript, PostgreSQL, and Prisma ORM within Agile team workflows using Jira. - Integrated frontend state management with Redux Toolkit and collaborated closely with team leads on feature implementation. - Used Swagger UI, Postman, and AI-assisted development tools to improve API testing, debugging, and development efficiency.			
Full-Stack Developer Intern	<u>TechTalks</u>	Remote Lebanon	Feb – Mar 2026
- Contributed to building GYIMIND, a gym management platform using React.js, React Native, ASP.NET Core, and PostgreSQL. - Developed RESTful APIs, JWT authentication, role-based authorization, and real-time features using SignalR. - Integrated external services including Firebase notifications, Google Maps APIs, and OpenStreetMap.			
Cybersecurity Ambassador	<u>Semicolon Academy</u>	Beirut, Lebanon	2025 – Present
- Conduct cybersecurity workshops and awareness sessions for university students. - Support students in hands-on security practices and secure development concepts.			
Freelance Full-Stack Developer	<u>SuperTech Solution</u>	Beirut Lebanon	2023 – Present
- Built responsive full-stack applications using React.js, Node.js, MongoDB, and MySQL for client and personal projects. - Developed secure REST APIs, authentication systems, and scalable backend architectures. - Designed modern UI/UX workflows and optimized application performance across devices.			

Projects

Rooted - MERN E-Commerce Platform:

- Developed a scalable e-commerce platform using React.js, Node.js, Express, and MongoDB.
- Implemented JWT authentication, role-based access control, and admin product management workflows.
- Designed secure REST APIs and optimized responsive user experience. [Rooted](#)

Python Code Editor Web App:

- Engineered a browser-based Python code editor with authentication, file persistence, and real-time execution workflows.
- Built backend services for code compilation, source management, and admin-level controls using Laravel and React. [Code Editor](#)

Licenses & Certifications

- Cybersecurity Specialist [Semicolon Academy](#)
- ISA - Information Security Associate - [Semicolon Academy](#)
- Ethical Hacking Foundation - [Semicolon Academy](#)
- Neural Network and Deep Learning - [Coursera](#)

Education

Lebanese University — B.S. Computer Science & Applied Mathematics

- Beirut, Lebanon - 2022
- Currently pursuing Master’s degree in Computer Science
